Tranquil ~ Elegant ~ Inviting

Traditional meets Modern in this spectacular 4,143 square foot five bedroom four bathroom architecturally designed home in Upper Rockridge. A level in entrance leads to the flowing floor plan and generously sized rooms, with a bedroom on the main level. High beam ceilings and a myriad of large wood windows bring the outdoors in. Solid wood doors and bamboo flooring speak to the quality workmanship that is evident throughout this beautiful home.

A large formal dining room and well equipped chef's eat-in kitchen plus adjacent family room make this a great home for gathering and entertaining; visions of holiday dinners with family and friends come to mind. On the lower level is a gorgeous, spacious in-law apartment with a large full kitchen and lots of storage space.

This extraordinary home is framed by the custom designed deck, landscaping and fencing by Randy Thueme Design Landscape Architecture. It is breathtaking!

Unique, functional, elegant and comfortable, do not miss this wonderful opportunity!
